- Crystal Reports for Solomon
- Business Portal

Partner

Congruent Info-Tech Pvt. Ltd

www.congruentindia.com

Client selected Congruent as their partner for developing and implementing Microsoft Dynamics Solomon

Client Situation

Internal Drivers

- Need for a better ERP system to enhance analysis & decision making
- Single product to drive their entire process
- Increase Productivity

External Drivers

- Improve Customer Relationship
- Improve the co-ordination between various outsourced departments

Congruent's Solution

Congruent designed and developed customizations to drive the entire process in a single ERP system. Following are the few tools from Congruent that seamlessly integrates with SL,

- Change Maintenance, to help maintaining engineering changes with the furnace
- Vendor Quotes, to maintain different cost layers of an item from different Vendors
- Logistics Update, to support the Purchasing activities for the Furnace
- Spare Parts maintenance, for automatic Sales order creation for spare parts of a furnace
- Designed many financial and Project oriented Reports that provides data for decision makers

Congruent Key Challenges

- Data Migration from legacy system which was very old
- Design and development of 3rd party products providing robust solution to business needs
- Seamless integration between the third party products developed by us and other vendors along with Solomon
- Co-ordination with multiple vendors who were providing different solution to the Client
