

## Solution Overview

### Industry

Food and Beverage

### Company Profile

The client is an agro-tech company that has developed a proprietary technology to grow and sell fresh, low-cost, high-quality shrimp anywhere in the world.

### Benefits

- Cost effective solution (as WSS 3.0 is freely available)
- Client could update the website content with ease without any technical assistance. This is still helping them to keep the site up-to-date
- Fixed price work as high as 90%
- Investors Site provided the facility for the investors to communicate effectively with the organization
- Highly secured Document Management system

### Technology Used

- Windows SharePoint Services 3.0
- ASP.NET 2.0
- SharePoint Designer 2007

### Partner

Congruent Info-Tech Pvt. Ltd

---

***Client selected Congruent as their partner for developing and implementing a Document Management and Custom Web parts***

---

## Client Situation

The customer had few bottlenecks with their existing Static website and felt the need for a new solution, which will be user friendly and easy to maintain

- Required a solution to replace Static pages used in existing website due to which frequent change of content was extremely impossible
- Required the single origin platform for both the employee and the Investors
- Required user-friendly and secure Document management / controlling system
- Search option was the most important requirement from the Business perspective, which was not effective in the existing system
- Required RSS Feed generation /maintenance feature

Client was expecting a simple, easy to maintain, Cost effective solution which will address all their pain points.

## Congruent's Solution

Congruent created an effective and extremely highly secured solution using Microsoft SharePoint technology –

- Developed the solution using SharePoint services 3.0
- Developed client specific "Page Layouts" for managing the creation of "Products Information Pages" easier
- Designed a Document Management system
- Developed / Configured the sites for Employee and Investors with various SharePoint Out-Of-Features like calendar, News & events, Announcements; RSS feed and Alert me
- Developed various custom web parts for managing the functionalities like "Email Newsletter Subscription" and "Contact Us"

## Congruent Key Challenges

- Creating a full fledged employee portal with limited features of WSS 3.0
- Custom development of Appointment booking with Calendar functionality of WSS 3.0
- Customized Search functionality with limited options in WSS 3.0
